Dear Yeshivah Community Members, Friends and Supporters,

At the Yeshivah Centre we are currently working hard to ensure that we have the appropriate policies and processes in place to guarantee a safe environment for our children. As well as appropriate policies, our values and behaviours need to reflect support to those who have been affected by this both now and in the future.

Today, Rabbi Telsner has notified the Committee of Management of his decision to stand down from his position as Rabbi at the Yeshivah Centre, effective immediately. This follows a recent event in which such values or behaviour to the extent required of a Rabbi in his position were not demonstrated. We support his decision and immediate resolve.

In Rabbi Telsner's letter to the community he apologises for his past conduct and urges everyone to show compassion and support towards victims and their families throughout the moised and broader community. We echo Rabbi Telsner's apology and his message of consideration and compassion and we resolve to make every effort to continue to move forward and improve in this regard.

Wishing you a K'sivah V'chasimah Toivah, and a Sweet new year.
